* Currently SFSU does not have an approved coursework program for these subject areas. However, if you finished all your coursework **BEFORE July 1, 2009**, these departments will evaluate your coursework for Subject Matter Competency.

** Currently SFSU does not have an approved coursework program for these subject areas. However, if you finished all your coursework **BEFORE July 1, 2010**, these departments will evaluate your coursework for Subject Matter Competency.

++ Dr. Peter Palmer **will only evaluate** subject matter competency for SFSU students AND those applying to SFSU's Credential Program

*** Currently SFSU does not have an approved coursework program for these subject areas. However, if you finished all your coursework **BEFORE July 1, 2012**, these departments will evaluate your coursework for Subject Matter Competency.

If a subject is not listed, SFSU does not have an approved program at this time. You must complete 100% of subject matter competency coursework at a California State University (CSU) campus to be admitted and begin SFSU's credential program. Per CSU Executive Order 1077 under Section III, a comparison and analysis of student transcripts from a non-CSU, non CTC-approved subject matter program shall not satisfy the CSU requirement for certifying subject matter competence.
